FOR ALL THE PURPOSES OF A

THERE has long existed a public demand for an

sive trial of its virtues has conclusively shown with

what success it accomplishes the purpose designed.

It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of

every other. This has been attempted here, and

with what success we would respectfully submit to

the public decision. It has been unfortunate for

the patient hitherto that almost every purgative

medicine is acrimonious and irritating to the bow-

els. This is not. Many of them produce so much

griping pain and revulsion in the system as to more than counterbalance the good to be derived from

them. These pills produce no irritation or pain, unless it arise from a previously existing obstruc-

tion or derangement in the bowels. Being purely

vegetable, no harm can arise from their use in any

quantity; but it is better that any medicine should

be taken judiciously. Minute directions for their use in the several diseases to which they are ap-

plicable are given on the box. Among the com-

plaints which have been speedily cured by them, we

may mention Liver Complaint, in its various forms

ous Fever, Fever and Ague, Pain in the Side

of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Billous Headache,

and Loins; for, in truth, all these are but the con-

sequence of diseased action in the liver. As an

aperient they afford prompt and sure relief in Cos

tiveness, Piles, Colic, Dysentery, Humors, Scrof-

ula and Scurvy, Colds with soreness of the body,

Ulcers and impurity of the blood; in short, any

They have also produced some singularly suc-

cessful cures in Rheumatism, Gout, Dropsy, Gravel,

Erysipelas, Palpitation of the Heart, Pains in the

Back, Stomach, and Side. They should be freely

taken in the spring of the year, to purify the blood

An occasional dose stimulates the stomach and

when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but

they suggest themselves to the reason of every

body; and it is confidently believed this pill will

answer a better purpose than any thing which has hitherto been available to mankind. When their

virtues are once known, the public will no longer

doubt what remedy to employ when in need of a cathartic medicine. Being sugar-wrapped they are

pleasant to take, and being purely vegetable, no

This remedy has won for itself such notoriety

from its cures of every variety of pulmonary disease,

that it is entirely unnecessary to recount the evi-

has been employed. So wide is the field of its use-

fulness, and so numerous the cases of its cures,

that almost every section of the country abounds

n persons publicly known, who have been restored

from alarming and even desperate diseases of the

lungs by its use. When once tried its superiority

rent to escape observation, and where its virtues are known, the public no longer hesitate what antidote

to employ for the distressing and dangerous affect
